SECA's Furniture and Toys Catalogue

Welcome to **SECA's** catalogue

Welcome to **SECA's** new 2011 catalogue featuring a wide range of furniture and toy products specifically catering for the early learning/education industry. All our furniture has been designed and manufacture in Australia by Australians specifically for the Australian market. Here at SECA we pride ourselves on producing high quality products and great service at a very competitive price. As we manufacture all our furniture items specifically for SECA you can be rest assured that if ever you need help with any concerns we are only a phone call away and only too happy to help.

We are always looking towards the future with environmental issues being a major concern. Using recyclable materials and products with zero dangerous emissions is extremely important to us. We are always looking at helping keeping our planet 'greener' as our children's futures depend on us and saving their planet.

We hope you enjoy our new catalogue and we look forward to providing you with great customer service and products for your Early Learning/Education Centres.

Kind Regards

The team at SECA

Furniture

Here at **SECA** we design and manufacture all our own furniture range specifically for the Early Learning and Education industry. We pride ourselves on providing you with high quality furniture items available from our extensive colour range including timber finishes.

We use only the highest quality local materials and hardware to offer you a far superior item than the commonly purchased products from overseas. We are now implementing E-Zero board in all our furniture products. This means zero formaldehyde emissions thus keeping up with world standards which is great for the environment and a major priority to SECA.

Another aspect of SECA is the effort we have gone to make your construction experience a great one. Each furniture item comes with a fully photographed, step-by-step set of instructions providing you with the confidence that your product will be constructed with ease. We offer personalized assistance should you need it as we are only a phone call away.

We hope you are happy with our new range of furniture. We are always developing new prototypes and hope to extend our already comprehensive product range. We are open to any new ideas that you might have and we invite you to contact us to discuss your furniture requirements.

Stack *n* Stow

SECA are proud to present a new innovative storage system which combines smart design with functional practicality

Stack 'n' Stow is the complete modular storage system which incorporates plastic commercial containers within a furniture cabinet

Each unit can be custom built to your requirements by either subtracting or adding the unique Stack 'n' Stow shelf

Either a 10 or 20 litre container with lid can be added to each shelf providing ample storage for toys, crafts, books etc

These practical Stack 'n' Stow storage containers also offer another unique feature. Both size containers fit securely into any of our custom made children's tables. Cut outs in the center of the table top allow for the containers to be placed in flush with the table surface

Children are now free to access anything within the plastic container while seated at the table. Once finished everything can be placed back inside the plastic tub and the container put away in the Stack 'n' Stow cabinet.

Stack 'n' Stow offers an amazing storage system to keep classrooms tidy and are a welcomed addition to any childcare centre.

Available in any colour or timber finish from our extensive colour range. See page 3 for colour details

Stack 'n' Stow Storage Combinations

Each combination can be configured to your exact wall size and with what ever plastic tub combinations you require

By simply adding shelves to any size unit, the stack 'n' stow system allows you to create the exact custom look you want to suit all your storage needs

Your configuration choices are endless in either stipple white, colour or timber finish.... Here are just a few

Stack 'n' Stow Storage Combinations

Storage - 3 Space Locker Unit

Single unit size: 360L x 370W x 1105H cms

RP004 (timber or colour) **\$165 + GST** **RP003** (white) **\$142 + GST**

Traditionally locker units for childrens bags came only in 2 sizes; 9 or 12 space cabinets. They were cumbersome, heavy, made with ply and not very practical. From these considerations a single unit was developed. The new style in a single locker unit provides many more features including;

Ability to be able to utilise an entire wall area with locker units and not waste any valuable space

Construct units with only solid board and PVC edging prolonging life of cabinets considerable.

Increase storage area inside allowing for oversize school bags.

Handling doesn't require multiple man power and complies with OH&S issues.

Storage - 3 Shelf Storage Unit

RP002 (timber or colour) \$195 + GST

RP001 (white) \$165 + GST

Single unit size: **900L x 300W x 910H**

These versatile storage units can be used in multiple situations. Features include;

Adjustable shelving with provisions to fasten shelf secure once in place.

5 pin adjustable holes per shelf providing greater stability to shelf and to prevent shelf bowing.

Units can be placed side by side as room dividers

Solid construction with no ply used.

Easy clean surface

* Basic assemble required

Toys

For the first time **SECA** are proud to put their name to a select few toy manufacturers. Famous brands like 'Blue Ribbon', 'WonderWorld' and 'Kiddytoys' are now featured throughout the catalogue, providing a full range of toys and accessories especially designed for the Early Learning Industry.

All toys feature high end qualities including, no sharp exposed edges, durable, safe water based paint finishes, exceptional hardware fittings and all come with a full guarantee against material and parts failure to give you that piece of mind that what you have purchased will stand up to the high demands from the childcare industry.

All toys are beautifully hand crafted and have a solid, natural feel about them. They are made from the environmentally friendly, recycled Rubber Wood Trees. For every tree cut down another two are planted in its place, helping sustain our ever depleting forests as well as contributing to help rebuild our planets ozone layers
